

veevid

**Publish, distribute, syndicate
and monetize your video
content.**

What is it?

A video management platform that provides everything you need to publish, distribute and monetize your video content, online.

Simple

We've created a platform that executes on the basics beautifully. Upload, publish, monitor & monetize with just a few clicks.

Powerful

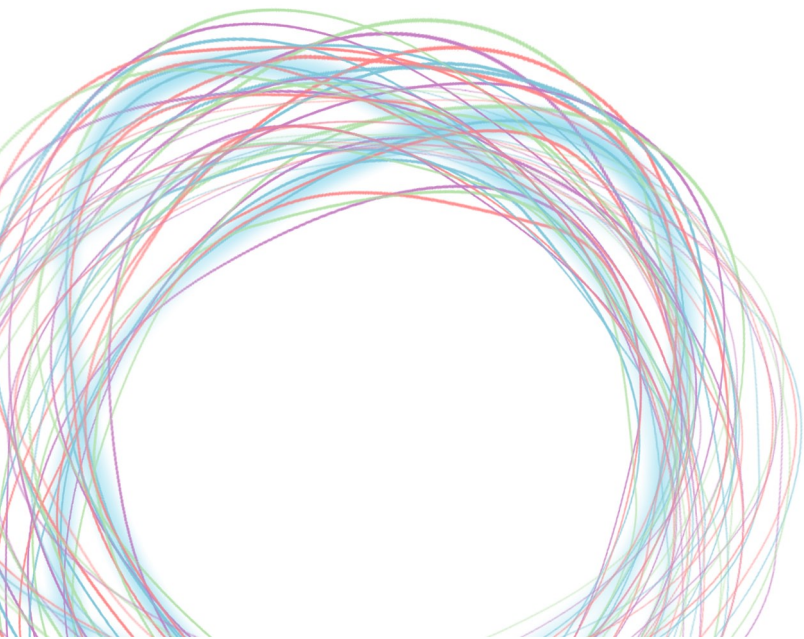

Some of our clients stream more than 10 million videos per month. We're proud to admit we know a thing or two about scalability.

Smart

Our audio & text recognition algorithms make it easier to index videos, by searching within the video material itself and automatically tagging what's important.

Fast

We can take any video project from planning to production in less than two weeks.

10 of our most interesting features:

Automatic audio & text recognition system

Our platform automatically scans the audio & text of every video you upload and tags it appropriately.

Template driven

Choose from our tens of video player and frontend designs or integrate a custom layout in a matter of days.

Scalable infrastructure

Whether you're streaming 10 videos per month or 10 million, our platform can easily be scaled just by adding new servers. No geeky skills required ;).

Dynamic delivery

VideoBrain automatically detects the end user's connection speed and adjusts the video bitrate automatically.

Unique control point

It doesn't matter whether you have one website or ten, you can manage all of them from a single admin console.

Social elements

Have your videos embedded on any website in the world, allow users to comment/rate or reply to your video.

Plugins system

Need to customize your website? Choose from our tens of plugins or create your own.

Ad management system

Run advertising campaigns for you and your customers. Monitor the campaigns and make money with your video content.

Video Analytics

View metrics like which videos are your top performers and how much bandwidth you are delivering.

Captions

Add captions to your videos, and users will be able to jump directly to the part that interests them.

How it works

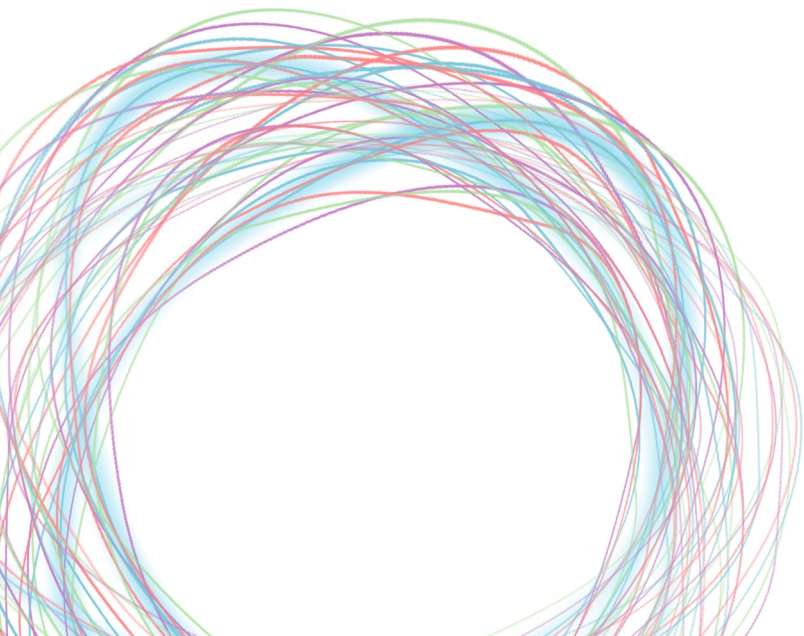

From planning to production
in less than two weeks...

...or less than two days, if you decide to use one of our existing designs.

Created for professional websites, **veevid** provides everything you need to make the most out of your video content, online.

Upload, categorize and structure your videos by using our flexible and simple to use "playlists" system. Publish them online, monitor and view your best performing content. Plug and play video ads and make money with your video content.

Speed without compromise. Clients love the quality work we deliver even under tight deadlines. We realize you don't have time to dilly dally. That's why we'll work with you to turnaround your project ASAP.

Who's it for?

We created **veevid** with two target audiences in mind: **small publishers** and **enterprises**. Hosted and Professional.

Hosted

Created for small companies or individuals who want to publish their video content online without the overhead of web development and infrastructure.

We manage the platform and host everything on our servers. All you have to do is manage your video content.

You can set it up on your domain and make it look similar to your website's design. All with just a few clicks.

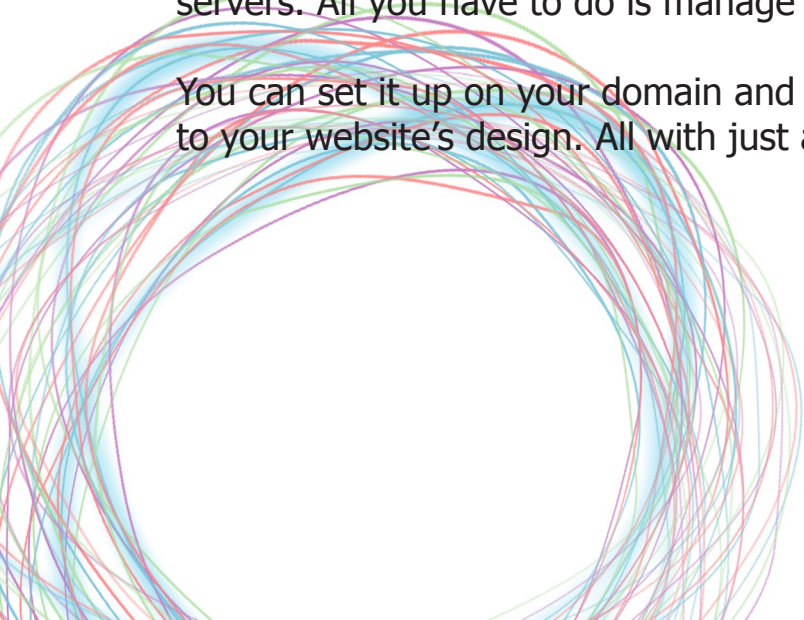

Professional

Suited for media companies, TV channels and production companies that stream millions of videos every month.

Take advantage of our audio & text detection to index your video files automatically.

Scale from one server to one hundred in a matter of minutes. Your visitors will never notice.

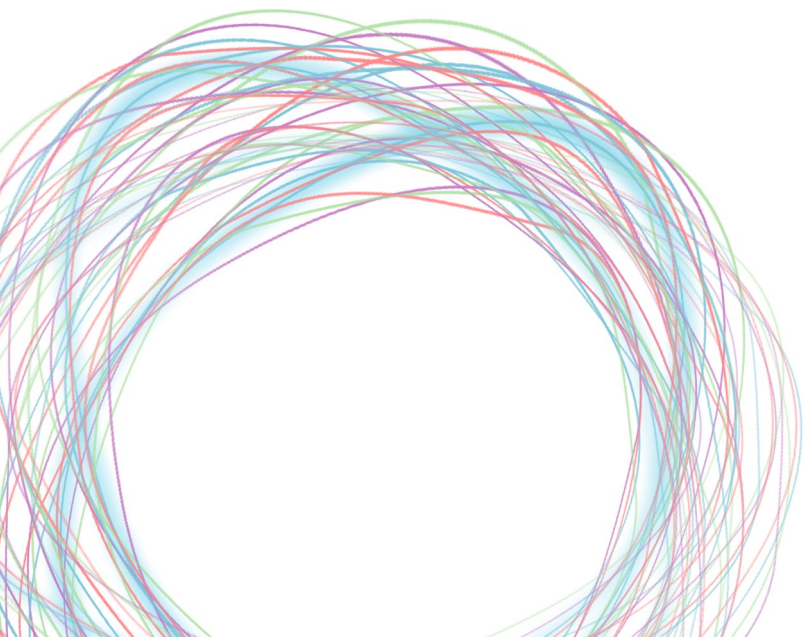

Monitor, analyze and monetize your video content.

Our customers

If we don't take care of the customer, somebody else will. We know that, so we strive to make our customers happy and help them make the best out of their video content.

We're currently working for two of the biggest media companies in Romania, and are discussing with a few other major potential clients in France, Denmark and UK.

Thank you.

Feel free to drop by our office,
even if just to say hello. We make
great coffee, by the way!

Email: office@brainient.com
Phone: +4.0756.067.796

Working with us is as easy as 1-2-3:

1. We'll interface

Let's meet over the phone, via e-mail, or in person.

2. We'll put together a proposal for you (fast!)

Request a proposal and we'll deliver it within 48 hours.

3. We'll deliver

As soon as you're ready, we'll get started. We'll make it our mission to deliver the results you need. Satisfaction guaranteed.

Thank you. We look forward to hearing from you.
